Objective

Curious and driven Computer Science undergraduate eager to apply programming and analytical skills in a challenging internship environment. Seeking to gain hands-on experience while contributing to meaningful and impactful technology projects.

Education

B.Tech – Computer Science and Engineering

Vardhaman College of Engineering, Hyderabad

Expected Graduation: 2027

CGPA: **8.27 / 10**

Technical Skills

Programming Languages: Python, C, JavaScript

Web Technologies: HTML, CSS, Flask

Databases: Oracle SQL, SQLite

Tools: Git, GitHub, VS Code

Project

EasyWheels – Wheelchair Guidance System

GitHub: github.com/tishyathi-23/EasyWheels

- Developed a web application that helps wheelchair users discover and review accessible places.
- Built using **Flask (Python)**, **SQLite**, and **Leaflet.js** for map-based accessibility visualization.
- Designed a simple interface for users to locate and review wheelchair-friendly locations.

Public Sentiment Analysis of Government Schemes

GitHub: github.com/tishyathi-23/govt_sentiment_analysis

- Built an NLP-based system to analyze citizen feedback on government welfare schemes.
- Implemented sentiment classification and topic detection using Scikit-learn and Latent Dirichlet Allocation (LDA).
- Developed a Flask web application that generates insights and improvement suggestions from public comments.
